

# Satvik Kishore

---

## Education

### Duke University

Durham, NC

### Masters in Interdisciplinary Data Science. GPA: 4.0

2021-2023

Relevant Courses: Statistics, Machine Learning, Cloud Engineering, Natural Language Processing, Computer Vision and Medical Imaging, Causal Inference

### Indian Institute of technology Madras

Chennai, India

### B.Tech., Materials Engineering

2013-2017

Minor: Industrial Engineering

## Experience

### Your Most Recent Work Experience:

Short text containing the type of work done, results obtained, lessons learned and other remarks. Can also include lists and links:

- First item
- Item with [link](#). Links will work both in the html and pdf versions.

### That Other Job You Had

Also with a short description.

## Technical Experience

My Cool Side Project : For items which don't have a clear time ordering, a definition list can be used to have named items.

- \* These items can also contain lists, but you need to mind the indentation levels in the markdown source.
- \* Second item.

Open Source : List open source contributions here, perhaps placing emphasis on the project names, for example the **Linux Kernel**, where you implemented multithreading over a long weekend, or **node.js** (with [link](#)) which was actually totally your idea...

Programming Languages : **first-lang**: Here, we have an itemization, where we only want to add descriptions to the first few items, but still want to mention some others together at the end. A format that works well here is a description list where the first few items have their first word emphasized, and the last item contains the

final few emphasized terms. Notice the reasonably nice page break in the pdf version, which wouldn't happen if we generated the pdf via html.

: **second-lang**: Description of your experience with second-lang, perhaps again including a [link] [ref](#), this time placing the url reference elsewhere in the document to reduce clutter (see source file).

: **obscure-but-impressive-lang**: We both know this one's pushing it.

: Basic knowledge of **C**, **x86 assembly**, **forth**, **Common Lisp**

## Extra Section, Call it Whatever You Want

- Human Languages:
  - English (native speaker)
  - ???
  - This is what a nested list looks like.
- Random tidbit
- Other sort of impressive-sounding thing you did
